BROOKLYN ITEMS.

BROOKETS CORNOR COUNCIL.-It was expected that the Police question would be brought before the Board last evening, but nothing of consequence was done in regard thereto. After the reading of the min stes, Ald. Del Vecchio moved that they be corrected. To e resolution passed last meeting in relation to the Pelice, inferred that the requisition of the Board of Commissioners was before the Board, and he consended that this was not the case. He wished the minutes amended accordingly. The President ruled that the only question before the Board was the approval of the minutes, and the question raised by Ald. Del Vecchio could not, therefore, be entersined. The minutes were thereupon adopted. The usual routine business was transacted, and the Board adjourned.

SENDAY-SCHOOL CELEBRATION. - The twenty-se eath anniversary of the Brooklyn Sunday Schools will be celebrated to-day, should the weather prove fine. There will be many thousand children out in parade

MAY FESTIVAL. - The young ladies of Public School No. 17 will give their annual May festival at the Odeon on Wednesday evening.

APPLICATIONS FOR LICENSES,-The Board of Excise have thus far received one bundred and six applieations for tavers and grocery licenses. Their next meeting will be beld on Friday next. They will commence considering the applications after the sixth

THE NEW MARINE BARRACKS.-The large area selected for the erection of the new barracks for the Marine corps, attached to the Navy Yard, promises to be seen in suitable preparation for the commencemen of this long-called-for and necessary work. The loca tion is admirably adapted for such a purpose, being directly between the Yard and the Marine Hospital ranning in front parallel with the wall of the Yard and on a line toward the Hospital by the Williams burgh Railroad. The building will be a great acquisi tion to the already improved part of the Yard. Corporal Casey, with a full compliment of men and horses is actively engaged in filling up the marshy space which, with the works now being pushed forward, shows some symptoms of animation in this neighbor-

ACCIDENTALLY SHOT .- A lad named Hugh Sloan was accidentally shot in the leg on Sunday by Officer Phalon of the Second District Police. The officer had directions from the Mayor to kill a vicious dog, and the boy running in the way the ball struck him instead of the brute. He was conveyed to his residence, No. 93 Gold street, and Dr. George Cochran called in to attend to him. The boy was not danger-

HIGHWAY ROBBERY .- Wm. McDavitt was met by two men on the corner of Front and Adams streets, about 12 o'clock on Sunday night, and while one held him by the coat-collar the other rifled his pockets of \$2.25, taking with it a key, comb, &c. One of the accused, named Cornelius Plunkett, was arrested and committed for examination by Justice Cornwell.

FOUND DEAD IN BED .- The body of a man named FOUND DEAD IN BED.—The body of a man named James Kernan was found in his bed, dead, on Sunday. He occupied a room by himself in a house on the corner of Walcott and Van Brunt streets. His door remained locked for some days, and the occupants of other apartments thought be had gone off, until their attention was attracted by a disagreeable stench proceeding from his room. They broke the door open and found his body in a half decayed state. The deceased was a sober, industrious man, and his death is supposed to have been caused by disease of the heart. The [Coroner took the body in charge.

charge.

BURGLARIES.—The grocery store of Mr. Philips, corner of Fourth and North First streets, was broken open on Sunday night and robbed of about \$29 in pennies.

Yesterday afternoon a house in Ewen street, occupied by Mrs. Margaret Wright, was entered during the absence of the family, and wearing apparel valued at \$30 was taken.

NEW-JERSEY ITEMS.

DEDICATION OF THE FIRST UNIVERSALIST CHURCH, NEWARK.

Newark may, with much propriety, be called the City

of Churches. With a population rising 63,000, it has fifty-eight church edifices, seventeen of which are Presbyterian, four Baptist, eight Methodist, five Roman Catholic, three Reformed Dutch and nine Episcopal-the balance being divided among the Univer salists, Congregationalists and Lutherans. The origin of the First Presbyterian Church, the richest and largest, dates from the early days of New-Jersey history; and it is to be remembered, always to its praise, that its founders were at all times true to Freedom in the struggles which aforetime convulsed the colony, the struggles which aloretime convulsed the convinced the the theoretical that the convergence of Newark exhibit great architectural taste—even the plain Methodists having one or two edifices upon which every conceivable architectural modernism has been lavished. Hitherto the Jews of the city have been lavished. Intherio the Jews of the city have been without church accommodation, but it is now stated that they have completed a contract for the erection of a Synagogue, their rapid increase of late having enabled them to raise means sufficient to justify the undertaking. Newark will, without doubt, before the expiration of another year, have full three score churches.

The newest, and in many respects the most attractive above his the city, is that recently creeted by the

The newest, and in many respects the most attrac-tive church in the city, is that recently creeted by the First Universalist Society, under the pastoral care of the Rev. A. St. John Chambié. This Society em-braces a considerable body of wealthy and respecta-ble citizens, and is constantly receiving accessions. Its growth forcibly illustrates the increasing liberalism of the see since a few years since. Universalism was Its growth forcibly illustrates the increasing internation of the age, since a few years since Universalism was, in Newark, tabooed by all the "respectable" portion of the community. The church which this Society has recently creeted at a cost of about \$20,000, while not as large as many others in the city, compares favorably with the finest in point of plan and finish; and it was fit that it should be dedicated, as it was sectorally affection, with imposing coremonics in the

and it was fit that it should be dedicated, as it was yesterday afternoon, with imposing ceremonies in the presence of a multitude.

The dedication exercises were of the usual routine description, but their interest was largely enhanced by the presence of several eminent preachers of the Universalist persuasion from New-York. The Sermon was preached by Rev. E. H. Charis, and fully sustained the reputation he has carned as a Pulpit Orator. His discourse was founded on First Corinthians, 13 chap.; I v., and had as its immediate subject—Charity, it was argued, is the very peculiarity and essence of Christianity, and without it all religion is cold and powerless. "It is that quality "which lives and works and dies to benefit and to "bless—it is the fulfilment of the Law towards God and towards man." It shone in the life of Paul, suffering bonds and pauns for the Truth's sake—in the "and towards man." It shone in the life of Paul, suffering bonds and pauns for the Truth's sake—in the life of Penu, of Howard, and above all in that Life of Lives, out of which all these grew. And we see its highest exemplification, when amid all violence and agony, the afterance comes down from the Cross: "Forgive them Father, they know not what they do." The necessity of preserving this charity in the Church was enforced at length, and the Reverend speaker concludeded by invoking, in choice rhetoric, the Divine presence while the new sanctuary shall remain, as now, a temple of true worship.

PAROCHIAL SCHOOLS IN NEW-JERSEY, -At the last Convention of the Protestant Episcopal Church of New-Jersey, a Committee on Christian Education was appointed, to consider the subject of Parochial Schools, and report upon the same to the Convention of the present year. This Convention will assemble at Burlington on Thursday next, and we understand that the report of the Committee aforesaid, which will then be

presented, will strongly urge the establishment of Parish Schools throughout the entire Diocese. The Parish Schools inroughout the dength the two sys-report contrasts at considerable dength the two sys-tems of Parcehial and Common Schools, and maintains with more earnestness than good taste, that Public Schools, as new organized and directed in New Jersey, are calculated to diminish rather than augment, the power of the Church, and ought therefore to be repu-diated, at least among Episcopalians. The report concludes with the following resolutions, which present in

Resolved, That this Convention do recommend to every particle of association of parishes throughout the Biocese, to establish, as seen at circumstances will allow, a school, under the Rector or Recotors, in which the Holy Scriptures, in their integrity, and the Formalizies of this Church as their accredited exposition, shall be a portion of the daily instruction.

Resolved, That this Convestion believe in the expediency of adopting every measure that may further promote the establishment of Parish Schools, and that early and active measures should be taken to ascertain whether, agreeably to the laws of this State, the expenditure of moreys which are raised by taxation of the members of our several convergations in the Diocese, may be appropriated for the education of their children, according to and by means of their own church system of tenching its doctrines and discipline.

BROOKLYN CITY COURT—May 25—Before Judge Culver. Edward G. Thompson agt. John Maher. Neil Murray, Martin Burke, Michael O'Conner, Neil Britton and some ten others, tenants occupying premises No. 40 Water street.

This was an action of ejectment in relation to the adversed holding or possession of the shove-amend premises on the part of defendants, who have been in occupation with some exceptions since 1831. It appeared in evidence that the late A. G. Thompson, who owned a large portion of real estate in this city and in other parts of the island, died leaving all his we saith and property to several religious societies, and cut-ting off two grandchildren, being his only surviving relatives. The tenants who then held possession remained on the premises up to this date, the lease of their landlord. Frederick W. There is no very marked change in the Stock market te-day, but the general appearance was better than on Saturday. There was a large business done in Erie and Michigan Southern, and both stocks were buoyant. Of Erie, over 5,000 shares were sold, opening at 331, touching 34, and finally closing in the street at 33], an improvement on the registered sales of Saturday. Speculation runs strong in Southern Michigan of which the sales were ever 4,000 shares, closing at 619, an advance of 1 per cent. The Scrip sold at 919. privilege came off. There is evidently a strong bull movement in this stock. Toledo was quiet, but improved 2 per cent. New-York Central opened at 861 but declined to 854, and closed dull. The weekly official statement of the Bank average

is in all items a very favorable one, showing a con traction of loats, with an increased specie line. The increase of the reserve of coin is unexpectedly large, and indicates that the receipts from the interior have been even larger than we stated. The undrawn deposites are \$68,517,000, against \$68,595,000 for the previous week. The specie line shows an increase of nearly six hundred thousand dollars, while the loans have decreased about the same amount. The shipment of gold this week, however, will be very large, probably exceeding two millions, to be counterbalanced by the California delivery of probably a million and three quarters.

A mercantile house which has been speculating in Erie to the extent, it is reported, of 5,000 shares, upon which was a loss of some \$80,000, did not respond on Saturday, which caused the suspension of their broker. They had previously paid out \$40,000 of losses. These prices are equal to 66 for the stock before the We do not learn that they suspend upon their regular business. The house has always been considered as strong-having made a large amount of money in the early California trade.

A company was organized on Saturday last for the building of a suspension bridge across Harlem River,

for which a charter has been obtained. The following officers were elected: Richard F. Carman, President: Louis G. Morris, Vice-President; Samuel F. Butterworth, Treasurer; T. Bailey Myers, Secretary, and Abraham B. Tappan, Counsel. The corporators are gentlemen who have interests in and are mostly residents of the vicinity, viz: Samuel F. Butterworth, Lewis G. Morris, John B. Haskin, Gouverneur M. Wilkins, Benjamin M. Whitlock, William H. Robertson, Lewis C. Platt, T. Bailey Myers, Abraham B. Tappan, Charles E. Wheat is steady, but Corn is rather heavy. The large arrivals of Sugar have checked the upward tendency of prices, and holders begin to reflect if the prices are not sufficiently high. Coffee is dull. The New-Orleans Bulletin gives the annexed statement of foreign Sugars imported into the district of New-Or-

We have received the following statement from a reliable source, which will be interesting to our commercial readers:

.... 26,076 654 1,522,536 April 26... 25.076 634 1,522,536 Of the above sugars imported from Jan. 1 up to April 30, 1857, 19.827,654 lb have acquitted duty on arrival: 6.249,000 lb have been warehoused. And of the warehoused sugars since Jan. 1, 1857, 58.860 lb have been bonded to interior ports; 56,744 lb have been withdrawn for consumption, leaving 6,123,356 lb in warehouse this day, duties unpaid.

Molasses imported during January, February, March and April, 1857, 1,197,833 gallons; value, \$2.96,571.

The gross receipts of the Niagara Suspension Bridge

for the year ending April 1 were \$41,963, and the disbursements \$4,597, leaving a net revenue of \$37,366. Of this amount the Great Western Railway pays regularly every year the sum of \$35,000, and pays beside all cost of repairs to the roadway for the trains. In 1856 the Company declared three dividends, aggregating 15 P cent, and a dividend of 5 P cent has already been declared this year.

lief that regular semi-annual dividends will continue to be made. The net earnings of the Road during the past year, have been chiefly from local business, the profits on through freights amounting to a small sum, comparatively, in consequence of the very low rates established by other Railroad Companies terminating in Cincinnatti, whose anxiety to monopolize all of that description of traffic, has led them to reduce prices below a fair remunerating point. A reference to the tables exhibiting the earnings of the Road, from the time it was first in operation, will show that the receipts from passengers continued to increase, until they had reached, for the year ending March 31, 1854, \$274,650 39; since which period they have gradually decreased to \$231,571 54, for the year ending March 31, 1857. This reduction is attributable to the opening of the Cincinnati and Indianapolis Railroad, and of Roads north of Cincinnati. The increase of local travel, however, has gone steadily on. While the passenger earnings decreased, the freight earnings have increased in a greater ratio, showing a total gain. The general account is as follows:

The Commissioner of the General Land Office has issued instructions to the land officers at Doniphan and Lecompton, Kansas Territory, respecting the receipt at the sale of Indian Trust Lands in June and July next of the transfer drafts on New-York. These drafts have been supplied by the Treasury Department to the Assistant-Treasurer at St. Louis, Missouri, and are in sums of \$1,000, \$5,000, \$10,000 and \$20,000 each. Persons desirous of depositing their moneys at St. Louis can obtain those drafts, to be used in the purchase of the lands in question. We take the following notice of the Boston Money market from the circular of Mr. Ashley. It will be seen that while New-York is borrowing money on Revenue Bonds at 7 P cent, Boston is getting considerable sums at 5 V cent:
In last week's circular the fact was noticed that the

large commission houses were refusing money at 8 ψ cent. Their borrowing rate is now established at 75, the paper of the same firms being sold at 8 ψ cent in he street. From the extreme dudness of trade and he favorable condition of exchange with New-York, the street. From the extreme dudness of trade and the favorable condition of exchange with New-York, it would not be surprising if yet lower rates were attained before midsummer. The Money market, as may be supposed, is very quiet. The discount houses are doing little, comparatively speaking, and not much is said about money at any price. The supply is considerably ahead of the demand, as far as undoubted paper of any general reputation is concerned. The lates for such notes as are esteemed by the usual street lenders may be quoted at 8±9 \(\text{Y} cent, \text{ with strong single names at 9±10.} \) Out of the way, but stanch paper, is taken at 9±12, and stock loans are readily obtained at about the same prices. The Banks are strong in coin. New-York funds are in large supply and slack demand, and, notwithstanding demestic exchange generally is now favoring New-York, Boston yet stands the creditor of the great city. The recent dry goods failures have resulted in producing a better feeling among the trade, as many of the jobbers have made satisfactory statements to the com mission houses of the condition of their affairs. No more bankruptcies are anticipated. The City of Boston, for instance, is berrowing considerable sums at 5 \(\text{P} \) cent, and a large amount on mortgage security has recently been obtained at the same price. For prime securities money is very abundant, beyond a has recently been obtained at the same price. For prime securities money is very abundant, beyond a question. The supply is ample; the demand light. The Philadelphia Ledger strikes the following note

The market generally shows depression. It is manifest there must be a stop to the expansion that has steadily gene on for the last four or five years. Prices have run out of reason. Beef at 20 cents # pound, and other provisions in proportion, are unendurable facts, and are traceable, to a greater or less extent, to speculations stimulated by bank credits. The banks are linely, we have any interpretable and the speculations. speculations stimulated by balak creams. The balas are timely, we hope, saving themselves and the coun-try from another such crash as we had in 1849. The circumstances are very different now from what they were then, but the same remedy must be applied. The were then, but the same remedy must be applied. The backs must compel payments. Hard though it is, it must be done, and through this means some produc-tive industry must be forced on those who have been living by their wils. We want more beef and potato-growers, fewer banks and no speculators for at least five years to come. Money is in more demand at rather higher rates. By the last weekly statement of the New-Orleans

Banks, as compared with the statement of the previous week, the results are as follows:

Decrease in Short Leans.
Increase in Specie
Decrease in Circulation
Decrease in Deposits
Decrease in Eachange.
Increase in amount use distant Banks. Money is in active demand in New-Orleans at 10 per The Mobile Advertiser states that a highly favorable
